PREFACE

This is the 24th annual edition of the “*Seton Hall University Fact Book*”. It is intended to serve the routine statistical and informational needs of faculty, administration, staff, and alumni. The Institutional Research Office has attempted to offer relevant information on the principal characteristics and strengths of Seton Hall University. In all areas, we have attempted to gather the current and most accurate data available. Please notify the Institutional Research Office if you are aware of any factual errors.

You are encouraged to offer comments and suggestions for improvement of future editions and the expansion of reporting areas.

Appreciation is extended to the many offices that have assisted in the research necessary for compiling this *Fact Book*.

THE UNIVERSITY

MISSION STATEMENT

Seton Hall is a major Catholic university. In a diverse and a collaborative environment it focuses on academic excellence and ethical development. Seton Hall students are prepared to be leaders in their professional and community lives in a global society and are challenged by outstanding faculty, an evolving technologically advanced setting and values-centered curricula.

As approved by the Seton Hall University Board of Regents, June 6, 1996.

STRATEGIC DIRECTIONS FROM SETON HALL'S STRATEGIC PLAN 2020 "FROM STRENGTH TO STRENGTH"

"From Strength to Strength" will move the University in six strategic directions to advance our mission to the year 2020 and beyond. It invites and encourages members of the Seton Hall community to discover and build upon the riches and resources of the Catholic intellectual tradition and to form servant leaders for a global society with increased vigor and commitment.

BIOGRAPHY OF MOTHER SETON

(1774 – 1821)

Elizabeth Ann Bayley was born August 28, 1774 in New York City. Her father, Dr. Richard Bayley, was a prominent physician and surgeon and the first Health Officer in New York City. Her mother, Catherine Charlton Bayley, the daughter of an Episcopal minister, died May 8, 1777 leaving three children, Mary (7), Elizabeth (2), and an infant, Catherine, who died two years later. Dr. Richard Bayley died of yellow fever in 1801.

A year after his wife died, Dr. Richard Bayley married Charlotte Amelia Barclay. They had four children. Mary and Elizabeth spent their summers with their Uncle William Bayley at the Pell Bayley House in New Rochelle, New York.

Elizabeth Bayley married William Magee Seton, a wealthy shipping magnate on January 25, 1794. They had five children: Anna Maria (May 3, 1795); William (November 25, 1796); Richard (July 20, 1798); Catherine (June 28, 1800); and Rebecca (August 20, 1802).

William Magee Seton suffered financial ruin and died of tuberculosis December 27, 1803 in Italy leaving Elizabeth a poor young widow with five small children.

Anna Maria, the eldest daughter, at 8 years of age, went to Italy with her parents where her ailing father died. She became affectionately called Annina by her mother. Anna Maria, as her father, died of tuberculosis March 12, 1812.

Elizabeth Seton, raised in the Episcopal Church, converted to Catholicism. She received her first Holy Communion in March 25, 1805. To raise and educate her own children, she became a teacher and wanted all children, boys and girls, to receive free education. At the Pace Street House in Baltimore she founded her first Catholic school.

On March 25, 1809 Elizabeth Seton pronounced vows of poverty, chastity and obedience. Henceforth, she became known as Mother Seton. She began the Sisters of Charity of St. Joseph on July 31, 1809 at the Stone House in Emmitsburg, Maryland.

Mother Seton established St. Joseph's Academy, the first Catholic parochial school in the United States.

Elizabeth Seton died of tuberculosis on January 4, 1821 at the age of 47. Her remains are sealed in the Basilica of St. Elizabeth Ann Seton in Emmitsburg, Maryland.

In September 1975, Elizabeth Seton became the first native-born American to be canonized as a saint. A tapestry bearing her image hung over the entrance to St. Peter's Basilica in Rome.

BRIEF HISTORY

Seton Hall University was founded in 1856 by Bishop James Roosevelt Bayley, the first bishop of Newark, who named it after his aunt, Elizabeth Ann Seton, a pioneer in Catholic education and the first American-born saint. The University is the oldest diocesan university in the United States. Nestled on 58 acres in the suburban village of South Orange, New Jersey, Seton Hall's campus is home to eight schools and colleges: the College of Arts and Sciences, the College of Education and Human Services, the College of Nursing, the John C. Whitehead School of Diplomacy and International Relations, the School Health and Medical Sciences, the Stillman School of Business, Immaculate Conception Seminary School of Theology and University College. Seton Hall's eighth school, the School of Law, is located in Newark, New Jersey. The Division of Continuing Education and Professional Studies is located on the South Orange campus.

From its original enrollment of a handful of students, Seton Hall grew rapidly. During its first 12 years, the College enrolled more than 500 freshmen from 17 states and six foreign countries. Seton Hall always has reflected the growing ethnic scope of its students and the increasing diversity of the Church and society it has served. In the 19th century, in spite of setbacks, major fires, lean times and the Civil War, the College continued to expand. By 1937, Seton Hall established a University College. This marked the first matriculation of women at Seton Hall. The University became fully coeducational in 1968.

The years after World War II witnessed unprecedented growth for Seton Hall as it responded to the needs of thousands of veterans seeking higher education. The College was organized into a university in 1950, comprising the College of Arts and Sciences and the schools of Business, Nursing and Education. The School of Law opened its doors in 1951 and the John C. Whitehead School of Diplomacy and International Relations was established in 1997, and formally named in 2002.

The 1950's and 1960's saw the construction and modernization of a large number of facilities and the construction of the library, science building, residence halls and the University Center. Many new programs and majors were inaugurated, as were important social outreach efforts. New ties were established with the private and industrial sectors, and a growing partnership developed with federal and state governments in creating programs for the economically and educationally disadvantaged.

The 1970s and 1980s continued to be a time of growth and renewal. New business and nursing classroom buildings and an art center were opened. In 1984, Immaculate Conception Seminary returned to Seton Hall, its original home until 1927, when it moved to Darlington. With construction of four new residence halls between 1986-1988, and the purchase of off-campus apartment buildings in 1990 and 2004, Seton Hall now provides living space for approximately 2,100 students.

The physical development of the campus continued in the 1990's. In 1994, construction was completed on the \$20 million, four-story Walsh Library. In 1997, Seton Hall moved its College of Education and Human Services, Stillman School of Business, Center for Public Service, and the Departments of Sociology and Anthropology, Psychology, and Political Science into Jubilee Hall, named to commemorate the University's Sesquicentennial.

When the Sesquicentennial of Seton Hall was observed in 2006, we looked back on the prophetic concluding words from the 1956 centenary history of the University: "Seton Hall University's great boast and claim to fame is not predicated on expansion, buildings or even curriculum. It lies rather in the hearts and minds of a dedicated and devoted faculty." Seton Hall's history has been one primarily of people: students and faculty living and working together in a community of learning, a community rooted in a Catholic tradition that is a home for the mind, the heart and the spirit.

^{*} **Note:** "Adjusted Freshman Cohort" excludes deceased students where death occurred during matriculation, or students determined not to have entered as full-time freshmen after census date reporting. The appropriate adjustments were made to the entering class size.

[†] **Note:** The attrition rates in the table are the number of entering fall freshmen who were not enrolled in the next fall semester.

[‡] **Note:** Beginning with the entering Fall 2006 class, the special admits category includes Seton Summer Scholars.

[§] **Note:** The breakdowns "By Resident Status" is based on the student's entering status and is kept at that value.

^{††} **Note:** "By Entering College" breakdowns may exclude students who switched between majors in their first semester, as well as students who switched between status undeclared and a major before or during their first semester.

^{†††} **Note:** The Arts & Sciences breakdowns include, in addition to students admitted to A&S majors, all students admitted with status "undeclared". Status "undeclared" applies both to students not admitted to their major of choice and to students undecided as to choice of major.

^{†††} **Source:** Data compiled by the Institutional Research Office from information contained on the university's registration files on the Student Information System (SIS) and Banner.

National Survey of Student Engagement 11-year Review

NSSE: Seton Hall has participated annually in the national assessment project known as NSSE (pronounced “nessie”) referring to the National Survey of Student Engagement (NSSE), for eleven years. The survey, designed by George Kuh and colleagues at the University of Indiana, does not ask students to assign satisfaction ratings to their courses and professors; rather, it asks them to quantify their own participation in, or the extent they have had opportunity to participate in, active and collaborative learning environments that challenge and convey high expectations. That is, NSSE asks students to quantify the extent that their courses and coursework ‘pull them in’ via pedagogy and practices known to lead to deeper learning; based on evidence for improved learning in environments enriched with these features (where evidence has been drawn from the research literature published across multiple disciplines and across many years of study). Rather than asking students to make subjective ratings or give agreement levels to satisfaction statements, they are asked to characterize the frequency with which they encounter concrete features in their own academic environments or the extent to which they personally participate in activities or behaviors attendant.

Because the project attracts a wide participation by other institutions each year, Seton Hall’s NSSE results can be calibrated against national reference values. These reference values give Seton Hall the means to see – relative to other institutions – its relative successes and challenges that have come from the University’s efforts to support and foster proven instructional practices.

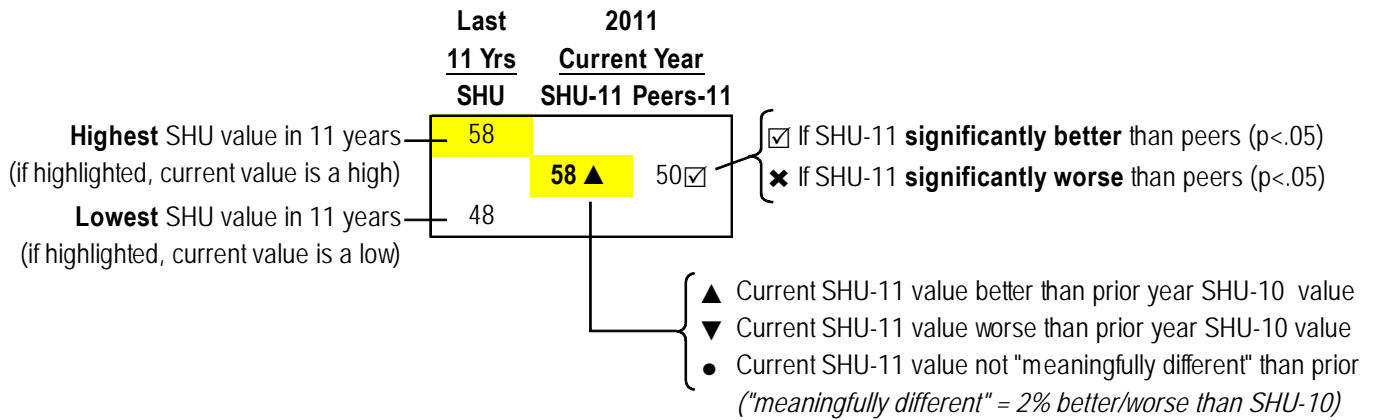

In summary, two key benefits of NSSE national study participation are 1. It is a survey project comprised of behavioral metrics rather than satisfaction ratings; and 2. It is a nationally conducted and calibrated study. These two features, together, are why exploring the results of NSSE are of value to SHU as part of self-study.

2011 SURVEY: As of the completion time for this Fact Book, the latest survey period from which SHU has NSSE results is Spring 2011. In 2011 a total of 667 institutions participated in the national study. Among the 667 thirty-four were in the same university category (Carnegie, Basic 2010) as Seton Hall. The average response rates for institutions in SHU’s Carnegie category was 20% for first year students and 26% for seniors; or 23% overall. At Seton Hall, the response rates were 25% for both first-year and senior students.

RESULTS: NSSE targets two student populations: **first-year** students and **seniors**. Therefore NSSE data must be reviewed and calibrated against reference values which are reported within, not across, these two different undergraduate populations. For each population, NSSE uses a subset of survey questions to combine student responses into 5 broad themes referred to by **NSSE as benchmarks** (*‘benchmarks of Effective Educational Practices’*). In the dashboard displays that follow, a further subset of Seton Hall’s NSSE results are presented for each group surveyed (first-year students and seniors) framed by NSSE benchmark headings. While for reasons of space and readability, not every question used for the NSSE benchmarks is included in the dashboard displays, by clear framing of dashboard items inside NSSE’s benchmark headings, balanced presentation of Seton Hall results is ensured. One is further assured SHU can use its dashboards to monitor appropriately since the subsets of questions presented by them have been kept constant since **2006**, the year SHU developed and began using dashboards to monitor SHU NSSE results,. The subsets of NSSE items were chosen in that first year using an approach both systematic and unbiased: All highest and all lowest SHU outcomes (relative to outcomes of Carnegie peers in 2006) were included, leaving room for approximately half of the remaining questions (a pool in which SHU results proved neither high nor low) to be chosen on the basis of importance to SHU. Dashboards by necessity are limited to 25 individual item results.

FORMAT: Review of trend indicators in dashboard cells provides succinct synopsis of where SHU stands relative to two potentially different, both important, types of reference information – the first: SHU relative to itself, i.e. relative to its own historical data over the entire 11 year period of participation; and the second: SHU relative to its peers, i.e. relative to averages reported by NSSE across institutions that participated in NSSE in 2011 and were in Seton Hall’s same classification category according to Carnegie Basic 2010. When reviewing the dashboard pages that follow in this Fact Book, readers are encouraged to consult the legend page as it presents a detailed “key” with full explanation of the Seton Hall NSSE dashboard cells.

NSSE DASHBOARD KEY

Values shown for "**Peers**" are as calculated by NSSE across the set of doctoral universities deemed SHU peers, by Carnegie (Basic 2010), that participated in NSSE in Spring 2011. A listing of these institutions is available from the Office of Institutional Research. Among SHU's Carnegie (Basic 2010) peers, 17 administered NSSE in 2011.

Additional Note

Whenever a trend direction indicator is shown followed by a ^, a positive gap between SHU and its peers has existed over time and remains large enough to influence the choice of trend indicator.

For example, ▲^ signals that a ● could have been chosen since the 2011 value is not higher than the 2010 value by 2%. ▲^ is used instead if SHU is maintaining an already highly significant positive difference from its Carnegie (Basic 2010) peers; though it did not increase further by 2% this year.

Similarly, ●^ indicates that SHU's latest value, while 2% lower than the previous value; nonetheless, is still at a level that represents a large positive distance from the average value across SHU peers.

Adjustments of this kind are made as required to avoid suggesting flat or negative trend when over time it appears that the bigger picture is one of a sustained and/or widening positive gap. Just one adjustment of this kind was made during crafting of the SHU NSSE 11 dashboard displays (see Senior responses dashboard, Study Abroad, NSSE question 7f, Enriching Experiences item, 1 year change in % of of SRs responding "Yes" was slightly less than SHU set 2% threshold change value).

^{*} **Note:** Beginning in the 2007-08 academic year, flat-rate tuition was charged. Flat-rate tuition covers 12 to 18 credits each semester. A per credit rate was charged prior to the 2007-08 academic year. The annual tuition amounts shown above prior to the 2007-08 academic year are based on a 30 credit hour load.

[†] **Note:** Beginning in the 2008-09 academic year a two-tier flat-rate was established. Students who entered in the Fall 2008 term were charged a different rate than those who entered prior to Fall 2008. The amounts shown above for academic years 2008-09 through 2011-12 are based on the rates for students that entered Fall 2008 or later.

[‡] **Note:** Required fees include the university fee for full-time undergraduate students and the mobile computing fee. The one-time orientation fee is not included.
