Dear Family

Thank you for being my support, my encouragement, and my motivation. 3 years ago, I never would have expected that moving across the country would bring us so close. Luckily, I spent my exceptionally early mornings alone with Mom before the boys could even fathom waking up and I learned that my walks with Dad are the best time to rant about my daily drama. It was the most challenging year of my life, but I wouldn't trade that time for the world.

This fall I will be attending the University of San Diego School of Law in pursuit of a career in international law!

I am so grateful for every opportunity I have been given because of your sacrifices, and I am so thankful to have been raised by parents with an enduring work ethic who taught me to never ever give up. I never take anything I have been given for granted because of you! Thank you for making a way for me!

Dear Mom and Dad, I always thought I was grown up at each milestone of my academic life. At my middle school graduation, I was at the top of the world. Then soon enough high school graduation came around, and now I was REALLY all grown up. But that wasn't true, and I can see it now. There is a level of gratitude and perspective that comes with this royal blue cap and gown that wasn't quite there with the orange and black one. I can see that my parents are truly the most important catalyst to the making of the man that I am today. Dear Family

Throughout my years of higher education, I experienced the loss of my father, my grandfather, my precious friend, and my grandmother. They are worth mentioning because they have all contributed to the abundance of love that I have experienced in my life. Although my college experience was not conventional, facing adversity while also being a successful student has truly shown me that I can overcome anything. I would not be here today without the love and support of my mother. She has built such a strong foundation for me and has provided everything she can to help me be successful. I am not fully certain where this next chapter of my life will take me, but I hope to become a successful woman in business and make a positive difference in the world. One day, I would like to write a book about my journey in life. I also know that my education has just begun.

I plan pursue higher education, and never stop reading and learning because I believe that to be one of the greatest gifts, I can give to myself.

Dear Mom and Dad, thank you for everything you have ever done for me. You both have been my number one fans during my academic and personal endeavors at Seton Hall. Ever since I was little you have encouraged me to study hard and focus on my classes to create more opportunities for myself in the future. While I have done this, one thing I can confidently say is that you both continue to demonstrate to me how to be a compassionate person. In my opinion, that is not something that can be taught in a lesson plan. My time at Seton Hall has given me many opportunities ranging from classroom presentations to holding hands with the elderly in El Salvador, to building the frame of the house in Colorado. I am incredibly grateful for participating in all of these events where you have stood behind me, waiting to hear all about it. It is because of you both that I am the way I am today.

Mom and Dad, thank you for supporting me these past four years. You were always there to congratulate me on my accomplishments and motivate me when I failed. There is no doubt in my mind that I made it to this point because of you. Thank you for all that you have done and all that you continue to do. Everything I accomplish is thanks to you.

I will be applying to medical school and work as a certified nursing assistant at Saint Peter's University Hospital in New Brunswick.

I love you both,

Dear Family

Thank you for everything throughout these four years! I can't describe how grateful I am because without you both I would not be the person I am today. Not only have you offered great guidance throughout my college experience, but throughout my entire life. You were always by my side through both good times and bad. Thank you for pushing me to be my best self always and teaching me to know my truth.

After graduation, I will be continuing my career in the sports industry with Major League Soccer's Philadelphia Union!

Dear Family

Hi Mom and Dad! Thank you for making the trip up and allowing me to see and hear all of your support. I want both of you to know that there is a 0% chance I could have done this without each of you. Although I talk a lot, I want you to know that I have listened and learned valuable lessons along the way. Whether it's about being the hardest worker in the room, effectively communicating my thoughts, or advice on how to always find the best out of life, I will continue to use these skills.

As I move on to the next chapter of my life, working for Third Bridge Associates and living in New York City, I can't wait to apply all the lessons I have learned.

Love,

Dear Family

Thank you for making me who I am. At such a young age, I was taught the power of wisdom and knowledge, and because of this, I am successful and worthy. My dreams would not have become my reality if it were not for you both. Mom, thank you for showing me the value of a hard-working woman, pushing me to excel, and being my best friend. Dad, your encouragement and sacrifice has led me here. You are my role model and best supporter. I love you both more than words. Grandma, thank you for your continued prayers, I love you!

After Seton Hall, I will be attending Montclair State University's Pre-licensure MSN Program with specialization in Care Coordination and Transition Management. I will then progress further and earn my DNP.

Dear Family

There will never be the right way to thank you for your unconditional support, love, and guidance. Thank you for giving me hope in times of sorrow, confidence in times of doubtfulness, and celebrations in times of success. There is a chance I would have given up on myself and everything I have ever strived towards if I didn't have people like you that believed in me. From swimming, to college, and now to law school, I have been absolutely blessed beyond words. I love you!

I will be attending Villanova University Charles Widger School of Law starting this August.
